Summary

Eager to learn and broaden horizons through gained experience.

Projects

Loot

Group project budgeting app designed to consolidate all bank apps into one.

-MySQL was used for the database.

- I created a money- transfer feature using VScode and a scheduler to make transfers in real time.

- Also created a family plan feature to create joint goals.

DSI Rings

Endless run style game based on Dante's Inferno's Seven Rings of hell

-Unity, C#

Warehouse Project

Senior Architecture project complete with plans, elevations, sections, details and schedules

-Revit, CAD

Experience

Chipotle Mexican Grill
Two years as service manager. Managed team of 10 people, handled money and planned schedules.

Starbucks Cafe
Two years as shift supervisor. Managed a team of 6, handled inventory and managed sales.

Currently at Nordstrom Rack as a floor associate.
